

MIRACULOUS AWAKE ESSENCE MANIFESTING AS A THOUSAND EYES, A THOUSAND HANDS, AND A THOUSAND MEANS

"I just want everyone to be happy,"
Soon return to the Awake Light Source,
That long ago forever radiating,
But covered by ignorance for many lifetimes,
Return soon to realize the Awake Source."

For the past 18 years, since the day of Awakened, liberating the source of ignorance, taking the vow of Opening, Guiding sentient beings, Realizing, Merging into the Buddha Nature.

With Unconditional Love and Wisdom that penetrates the human mind, with the Great Vow to help people, it is the Love of Sentient Beings, who are adrift in the deep sea of birth and death, but are happy and sad in it without knowing it, is the motivation that helps us never stop entering the sleeping consciousness of each disciple, using many Awake tools to Wake Up, opening their wisdom, guiding, teaching, sometimes as hard as hammering at the head, sometimes as light as the stream of water seeping into the mind of sentient beings; Sometimes stirring up doubts in them to allow them to see the source of ignorance running in each person, sometimes traveling far away for many days, allowing the disciples who stay back facing the turmoil in the mind, deeply feeling the impasse and no way out, when there is no Awake light shining; Sometimes guiding and pushing the disciple to the dead end, helping them face the truth in themselves, so that they can contemplate about the deadlock that leads to suffering in the mind; Sometimes asking them continuously with many questions, drilling into their ego, turning their minds around without any escape, helping them realize the ego of good, intelligent, winning and losing, right and wrong, good and bad, the ego of rich knowledge...all come from the source of ignorance; Sometimes for the disciples, who are too ignorant, believing everything real like an asleep person, like an addict, have to take a punishment, helping them to Wake Up from the ignorance and attachment, to boldly walk on the Awake path, liberating from the suffering of birth and death; Sometimes right in time, help them to realize "The Truth Before their Eyes, The thing that never born nor die" to inspire trust and motivation for the disciples to stand up to sincerely ask for the Awake treasure; Sometimes staying silence, not answering questions that only feed the ego of the disciples, aiming to help them realize: "Because of one illusive thought, Wandering in the cycle of birth and death, Lost and forget the way back, Don't know where is Destination "; Sometimes opening Wisdom, helping them realize the karmic force that gradually surrounds them; Sometimes allowing them to see clearly, that they have no more merits, thereby the spiritual path is delayed, stuck, judging, attaching, drowsy; Sometimes chasing the disciples with the mind full of real attachments, forcing them to leave the Center, in order to have the opportunity to look back at themselves to confirm their Awake goal, liberating from the thoughts of ignorance and attachment; Sometimes constantly opening Wisdom for the disciples to see clearly what is Illusion, what is Awake, thereby developing the goal to Wake Up, liberating the source of ignorance that is controlling them every moment; Sometimes let students to meditate for hours, facing the

thoughts of ignorance in the mind to realize what is Awake, what is Illusion, thereby developing the goal to Wake Up to liberate the source of illusion that is constantly running inside; Sometimes introducing many "Ultimate Games" (Awake retreats at the Center, Awake retreats out of state or abroad, tea party, gala dinner, going outreach, Awake New Year Festival ...), helping disciples to join and merge together to experience, allow direct self realization of what is Real, what is Not Real, from there have the power to sincerely ask Awakened Ones for help to soon Merge into Awake World, Liberating the cycle of birth and death, Wake up the world; sometimes from the pure Awake Essence, radiating Awake light to open Wisdom for students with enough merits to merge into the Awake Light source, where there is full of Wisdom, Compassion, Awake tools and great vow of helping sentient beings, etc.

This immense range of Awake tools, being applied back and forth, extremely flexible, spontaneous - not through books, beyond knowledge, breaking stereotypes, not following the old path - is manifested from the pure, immaculate nature, point straight to the deeply sleeping mind, help the disciples to realize and merge into the infinite Awake source, liberating ignorance and attachment, the karmic attachment, expanding the vast Awake path. From there, the Awake trust and Awake vitality erupted completely, straight a path to merge into the pure nature of Tathagata, vow to accompany the three Buddhas, liberate countless beings.

In that immaculate pure essence, there is no place, no time, no day and night, where "there is completely no object", thereby manifesting freely, regardless of early or late, afternoon, evening, sometimes from early morning until 3am, 4am in the next morning: Meditation hall, dining room, in the car, at the park, on the mountain, at the beach... many days like that, during the course of the retreat, continuously open and awaken the Awake potential in them.

In that innate essence, empty without body, mind and realm, no I, no You, there is only boundless Love and infinite Wisdom and with great Vow to help all sentient beings, no matter who they are, regardless of men and women, race, religion, just know that, all have Awake potential but being covered by clouds of ignorance and attachments, therefore they endure the suffering of birth and death.

To this day, the Awake flowers and fruits are blossoming. The disciples, through many times, spending lots of time, received wisdom opening teachings and guidance and nurturing from Awakened Ones, many Lotus seeds have been awakened and transformed, there are Lotus seeds that have bloomed with a fragrant aroma, which is the driving force helping many other Lotus seeds rise, want to bloom, to escape the mud of muddy consciousness.

This is the only great vow after merged into the Awake world; it is that great vow that has pushed us to step into life devotedly, with the immense, spacious, pure and immaculate Essence. With that, just stepped in, nothing obstructed, the further stepping in, the more open, clear, all knowing, immaculate and free. The more we step in, the clearer the source of the attachment leading to the suffering of sentient beings. The more we understand, the more we love sentient beings, and the more we vow step by step to help them so they can soon merge into the immaculate nature of Tathagata to liberate from all defilements and bondage.

This is also the place, when I just arrived in this world, I had a very clear feeling why I came here, what to come for? In my mind, there is always the urge to return to the pure, spacious, immaculate Essence, and vow to bring sentient beings back to the pure, spacious, immaculate place, free from all illusion and attachments leading to the suffering of themselves and others.

During the past 49 years, in that immense, spacious, immaculate Awake living, Miraculous Awake Essence continued to manifest and wake up people to soon return. That Miraculous Awake Essence is still so clear from the time I was arrived in this world until today, still brightly shines the great vow of being present in this world, and continues commit to the goal of Opening, Guiding sentient beings, Realizing, Merging into the Buddha Nature.

"I come from the Awake Light Source, and come back to the Awake Light Source, step by step bringing sentient beings to the Awake Light Source, so what is Awake Light Source?"

Sentient beings, the Awake Light Source is already inside each of you; please give yourself a chance to start the journey to return to the Awake Light Source; only living with that Awake Light Source, the state of mind becomes open, spacious, immense, pure, infinite and immaculate; That Miraculous Awake Essence, immense, vast, pervasive, clear throughout, disturbed by nothing, full of Wisdom and Unconditional love.

The spacious, pure, immaculate nature is the true homeland that each person needs to return to, which frees all sources of illusion and attachments leading to suffering. That is Miraculous Awake Essence, manifesting as a thousand eyes, a thousand hands, and a thousand means to bring all sentient beings to merge into the open, spacious, pure and immaculate nature."
